Target Audience

These courses are for Teachers working in Primary Education who need to refresh their methods and techniques. The course uses practical hands-on techniques which address and motivate the primary learners. Participants need to be at a B1 level of English.

Course Overview and Outcomes

As a participant on this course you will explore the principles and practice of teaching English to young learners. You will also extend your personal, professional and classroom language. This is a highly practical course which encourages you to explore active pedagogies as well as collaborative and creative strategies to enhance your teaching. By experiencing the power of storytelling & story-reading, playing educational games, exploring arts and crafts activities and the world outside the classroom, you will build a collection of diverse teaching tools, materials and techniques. You will consider cross-curricular activities, and approaches to content teaching through English with younger learners. You will also have the chance to try out some of the activities through dedicated micro-teaching sessions with your course colleagues.
